CAREER OBJECTIVE

Motivated Computer Science (IoT) student with strong foundations in Python, web development, data analytics, and problem-solving, seeking a Software Engineering Internship to apply technical skills in designing, developing, and optimizing scalable applications. Eager to contribute to innovative technology solutions while gaining hands-on experience in full-stack development, data-driven systems, and emerging technologies.

INTERNSHIP

Accent Techno soft	05/05/2025 –
Web Application Develop Intern	05/06/2025

Gained hands-on experience in real-time web application development using modern front-end and back-end technologies, implementing responsive UI and scalable server-side logic. Applied debugging, testing, and performance optimization techniques to resolve runtime errors and improve application efficiency. Worked with database integration, RESTful APIs, and version control systems (Git) in a collaborative development environment. Strengthened problem-solving, code optimization, and software development lifecycle (SDLC) understanding through practical project implementation.

EDUCATION

Sri Krishna College of Technology	2027
Bachelor of Engineering-B.E.CSE(IoT)	
CGPA: 8.25(Pursuing)	
Adhiyaman Public School	2023
Higher Secondary	
Percentage: 75%	
Adhiyaman Public School	2021
Secondary	
Percentage:80%	

TECHNICAL SKILLS

Programming Languages	Database	Framework
Java, C++,HTML,CSS	MySQL	Springboot,React
Actively Up skilling in Data		
Structures and		
Algorithms(DSA)		

AWARDS & ACHIEVEMENTS

Participated in Synergy Surge–Srishti'24, a national-level coding competition organized by PSG College of Technology.

Presented a paper titled 'Quenching the Thirst for Innovation: IoT in Water Distribution' at Yugam'24, Kumaraguru College of Technology (KCT).

Achieved NPTEL certification in Introduction to Internet of Things (Got Silver Badge) and Effective writing strengthening IoT fundamentals and Communication skills.

PROJECTS:

Social Media Profile analyzer:

Built a full-stack application using React.js, and MySQL to analyze social media engagement metrics such as likes, comments, and shares. Developed real-time analytics and visualization features to help users optimize content strategy and improve audience engagement.

Real Estate Market Trend Analysis (2021–2024):

Developed an interactive Power BI dashboard to analyze property sales, pricing trends, and city-wise performance using DAX and data modeling. Delivered insights on sales distribution, price per sq ft, and property type trends to support data-driven decision-making.
